APPLIQUE INSTRUCTIONS

Please note that Buzz Tools change the names of the colors to be used to differentiate between the different stages when you appliqué.

You will need:

- 2 x 20x20cm pieces of cotton material for the potholder
- Material for the applique animals
- 1 x 20x20cm piece of Heatex (heat resistant batting)
- Vilene Avlon Plus

Make sure you adhere to the attached color chart when you stitch out the appliqué designs.

Always remember to test stitch any design. Especially when you want to create something different.

All the designs are digitized so that the appliqué design will be trimmed in the hoop.

1. Hoop 2 layers of Vilene Avlon Plus. One layer of tear away can also be added on top of Vilene Avlon Plus.

2. **Placement Line** - An outline will be stitched to indicate the position of the appliqué pattern.

Potholder placement line

Applique design placement line

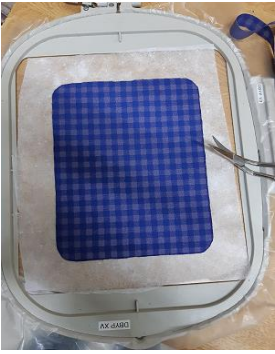

3. Remove hoop from machine attach material to be used for appliqué.

4. Make sure the material is nice and flat and if desired you can pin the material to the Vilene Avlon Plus. Attach hoop again to machine.

5. **Cutting Line** - An outline will be stitched to indicate the trim line amongst which the material must be trimmed.

6. Remove hoop again from machine and trim material as close as possible to trim line.

Potholder cutting line

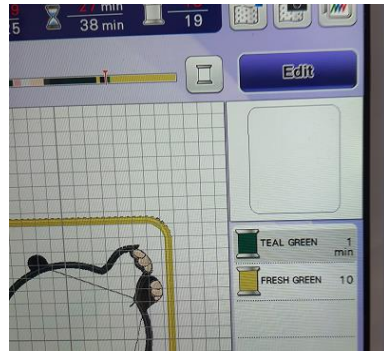

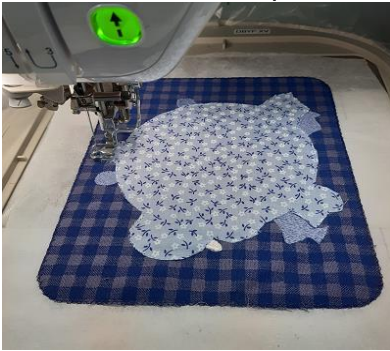

Applique animal cutting line

7. Attach hoop to machine.

8. **Tackdown** -The trimmed material will now be tacked down.

9. Now follow the rest of the design until you get to the step where it is going to embroider a cutting line again.

This will be the second last step.

10. **VERY IMPORTANT.** Insert a bobbin that has the same color embroidery thread as the color your satin outline will be.

11. You will notice a small line embroidered at the top of the potholder. You can now attach braid, ribbon etc

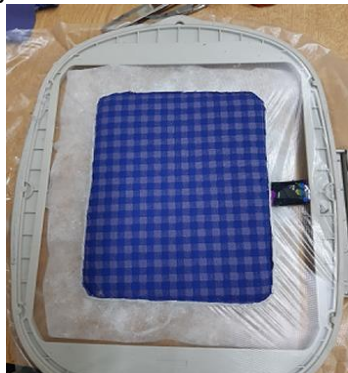

Use tape to hold it in place so it doesn't move when you attach the Heatex and backing material.

12. Attach the Heatex and then the material to the back of the hoop to cover the whole design. Pin to the Vilene Avlon Plus.

13. Attach hoop again to machine. Embroider the cutting line which will attached the Heatex and backing material
14. Remove hoop and cut away excess Heatex and backing material as close as possible to the cutting line. Be careful not to cut your ribbon/braid or the Vilene Avlon Plus.

15. Attach hoop again and embroider the satin outline.

Each stage will be indicated on your machine in a different color.

Thank you for purchasing designs from DesignsbyPetro.
Please do not hesitate to contact me if you experience any problems.

Happy stitching!!
