

# INSTRUCTIONS FOR APRON AND LABELS

## APRON

Hoop two layers of tear away.

You can either use felt or material for the aprons.

Cut 4 pieces of satin ribbon long enough to go around the neck and belly of the bottle.

Once the Applique Guide line has been stitched place the ribbon as indicated above. Make sure that it overlap enough so that when the trim line is stitched it will also sew over the ribbon.

Just be sure not to cut the ribbon when you trim the material.

Once finished tear away all the backing.

If preferred you can also use a water soluble backing.

## LABLES

The same instructions apply but you will only need two pieces of ribbon.
